

*Welcome to
Pittsburgh, PA*

PA's Efforts to Recycle Land

- ⇒ Hazardous Sites Cleanup Program (State Superfund) Response Actions: 135
- ⇒ Storage Tank Corrective Action Program cleanups approved: 5,214
- ⇒ Voluntary Remediation Program established in 1995 (Act 2)
 - 1896 Projects in the Program
 - 1,381 Projects Approved

Remediation End Points

➔ Standards are screening limits for site investigation

- Background Standard

Concentrations present, but not related to a release at the site

- Statewide Health Standard

Medium and use specific (soil and water)

- Site Specific Standard

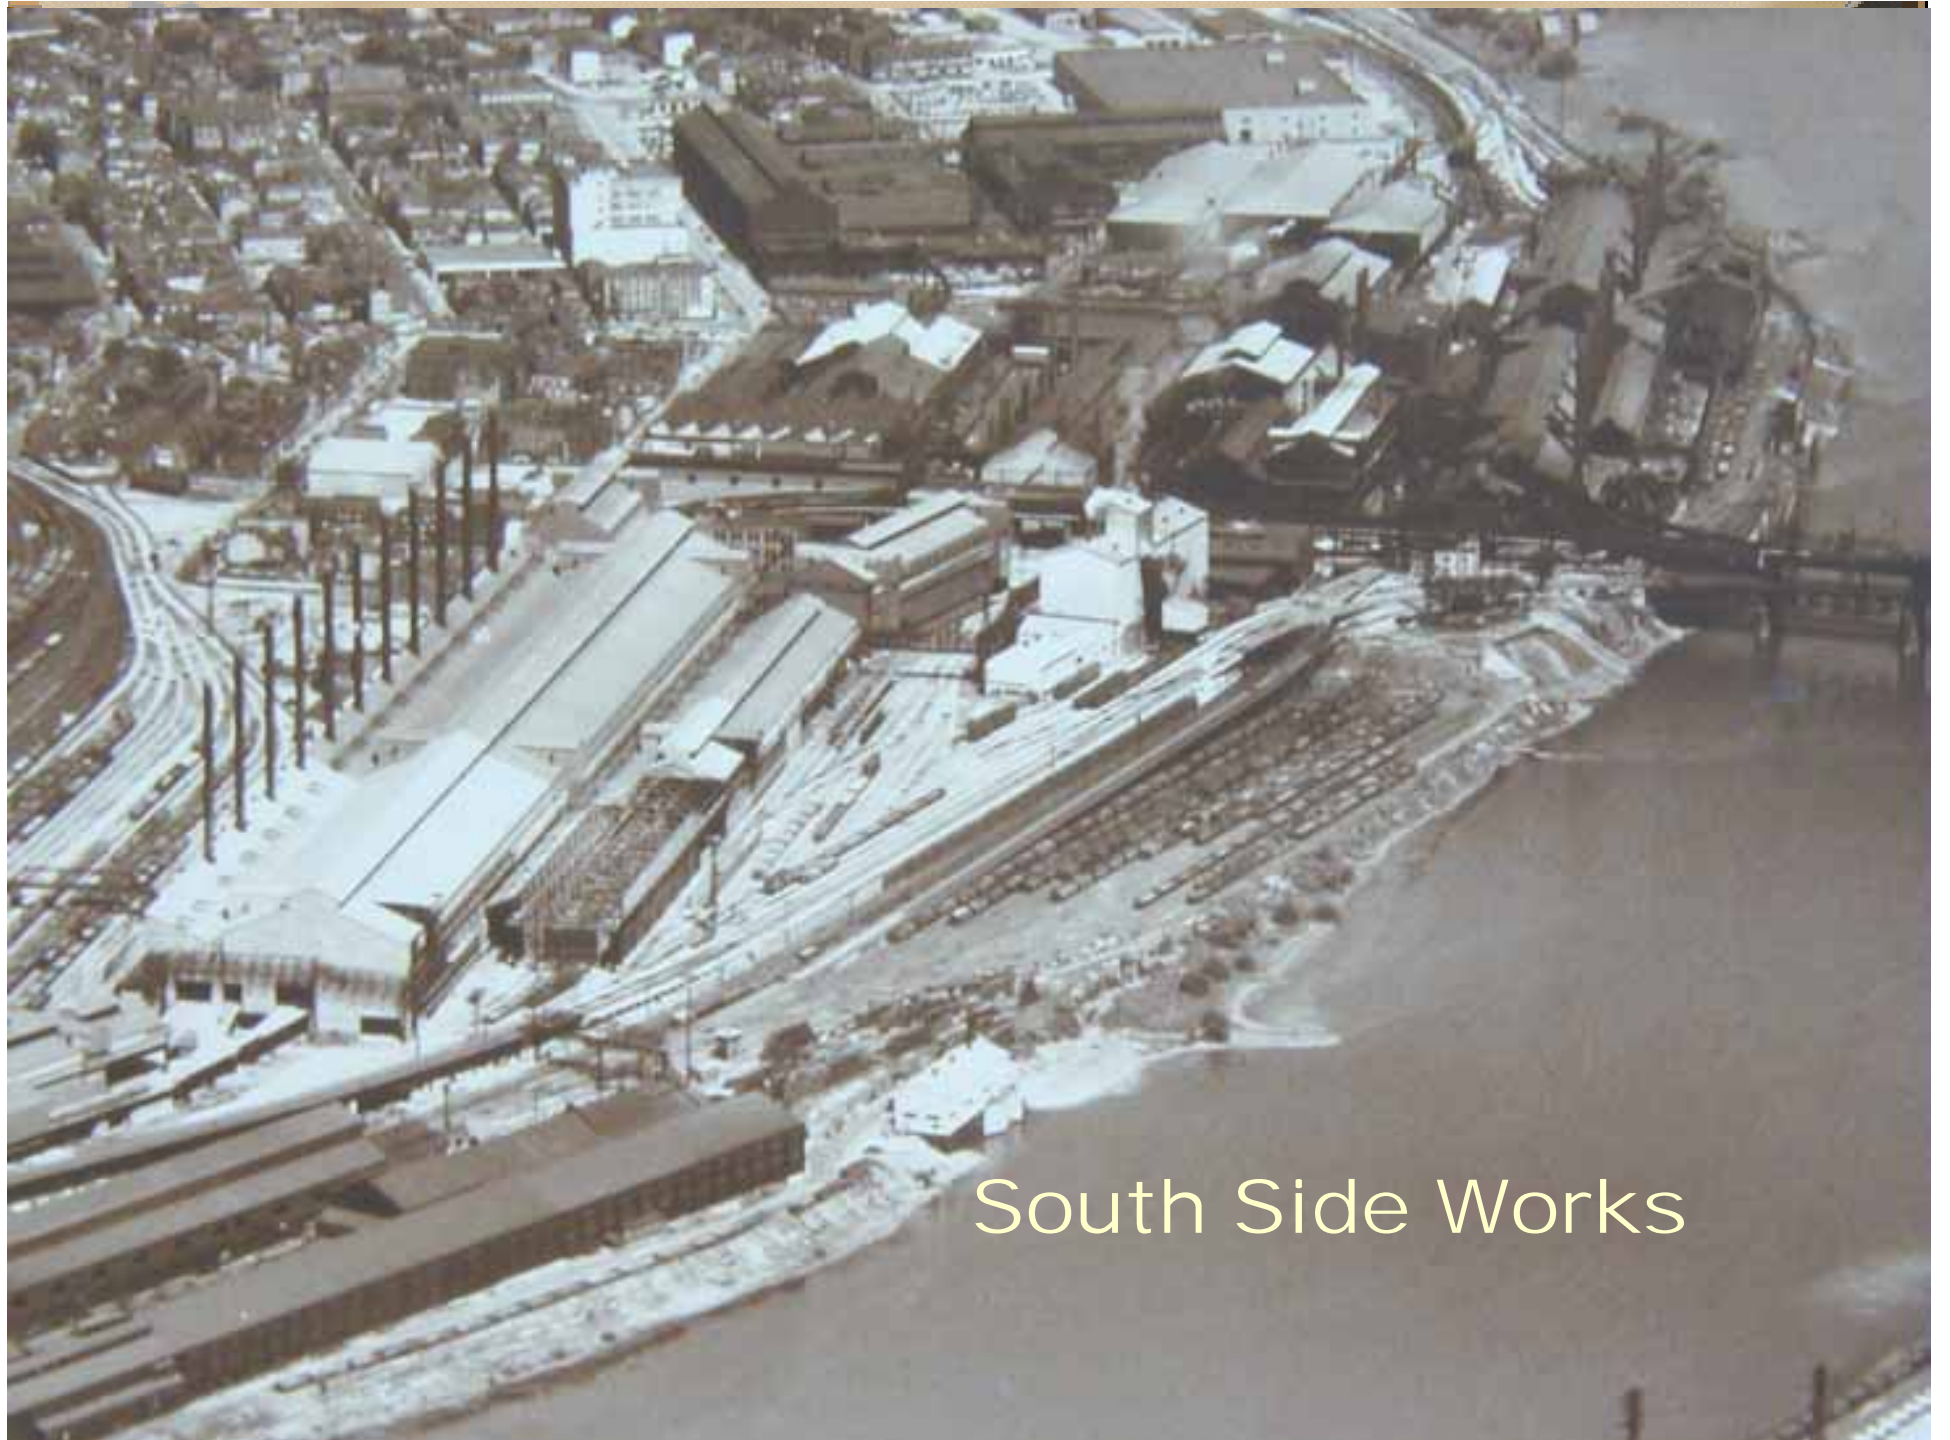

Risk based approach - pathway elimination

Site Investigation Goals

- ⇒ Identify areas of concern
 - ASTM E1927-00, E1518-00, E1903-97
- ⇒ Assess exposure risk and management based upon:
 - Standard selected
 - Existing or proposed use of property
 - Ecological receptor risks
- ⇒ Value of liability protection proportional to completeness of site characterization and remediation measures
